A NEW AND ABUNDANT PHASE OF DISSEMINATION

The dissemination of ideas has passed through marked phases, from notations on scrolls, copies on paper, the invention of the press, various forms of the media and most recently and specifically, in digital format through the Internet.

The Spiritist Movement rests upon the base of the Spiritist Teachings, taken from the books elaborated by the Codifier Allan Kardec. The expansion of Spiritism is due principally to the Spiritist books as seen, for example, by the impact of the psychographic works of Francisco Candido Xavier in Brazil – where there has been a true ‘separation of the waters’ – and within the Spiritist Movement of various other countries.

This year the Brazilian Spiritist Federation has launched its first ‘Course at a Distance’ through its GATEWAY site (www.febnet.org.br) and participants can take part in this Course from any part of the globe, through their PC. At the same Gateway site there is a digital subscription available for the monthly magazine “Reformador” (The Reformer). The books for this Course, published in association with EDICEI, are available as ebooks, from various distributors of digital books. The majority of books from EDICEI are now being made available in this new format.

Apart from its books, the International Spiritist Council is also preparing a transformation of the publication – A Revista Espirita – already in both English (The Spiritist Magazine) and French, into digital editions. And, already for several years now, TVCEI has been offering to the world a wide variety of talks and programmes in various languages, such as a webtv, accessible by domestic PC’s, and more recently within Brazil, also via satellite.

Spiritist Centres, Spiritists and sympathisers from all regions of our planet, now have at their disposal various ways of maintaining contact with the Spiritist ideas. Including obtaining information regarding the organisation and method of functioning of its Centres and the Spiritist Movement in general.

The spread of the Spiritist principles has already surpassed all expectations. We could even say they have become ‘spiritualised’ because its archives are now digital and can be accessed at any moment in any part of the world!

EUROPEAN COORDINATION DEPARTMENT

Between 3rd & 5th June this year there occurred the 12th Symposium organised by the Belgium Spiritist Union, sponsored by the Spiritist Francophone Movement (LMSF) and the European Coordination of the ISC, that was held in the Wégimont Castle in Belgium.

The castle was full with more than 130 participants, from Belgium, Belarus, Brazil, Finland, France, England, Italy, Holland, Luxemburg and Switzerland. The programme included talks on the formation of workers for the Spiritist Movement, Unification and Mediumship. The event also received the active participation of the General Secretary of the ISC, Nestor Masotti. There was also a presentation by Michel Buffet about the campaign to prevent suicide that has been prepared by the LMSF, that touched many of the participants, because it is a subject of great relevance in Europe today. This campaign should broaden out to be on a European scale within the next few weeks. As in past years, there have also been parallel activities with a Seminar on Moral Teachings for Children and Youth, during which a "Show" was given that was received with enthusiasm by all present.

During May and June a series of Seminars and conferences have been given by Divaldo Franco in several European countries and towns with a large participation of local residents.

With the assistance of AME International there are a series of Medical-Spiritist events organised for the months of October and November this year. These events have a big impact on European audiences.

The next meeting of the European Department of ISC has been confirmed for 28th October 2011, in Porto, Portugal, where the VIII Portuguese National Spiritist Congress will take place on 28th & 29th October. The venue and a room have already been reserved for this event. We are in contact with the President of the **Portuguese Spiritist Federation**, Vitor Mora Faria, who will be sending out full details of this event to all participants very soon.

Finally, we are happy to note that our friend Driss Karouati, who lives in Morocco, has already translated into Arabic the text of the ISC campaign entitled: 'Get to Know Spiritism'; he has also translated the booklet 'Spiritism in its Most Simple Expression'. These elements will certainly be inserted into the website, in preparation for the future coordination work of the ISC for Africa.

Due to our fellow worker Spartak Severin, after having reached as far a field as Moscow, at long last it seems that the Spiritist Teachings are now beginning to approach Peking, in the form of the first translations that have begun to be written in Mandarin. The work of translating the books of the codification and subsequent complementary works, is continuing in various countries in a variety of languages.

As we can see the field of work is enormous, but the dissemination of the Spiritist Teachings is progressively advancing with the objective to reach all humanity, according to the ISC Constitution and its planned campaign of dissemination.

The Coordination Department of the International Spiritist Council for Central America, Panama and the Caribbean cordially invite everyone for the **II Spiritist Gathering of Panama**, to be held on 17th & 18th September 2011, coordinated by Dr. Maria de la Gracia Ender. The ISC Representative for Central America, Panama and the Caribbean, Dr Edwin Genaro Bravo Marroquin, will travel to Brazil to participate in the **VIII Medical-Spiritist Congress – MEDNESP** that will take place in June 2011. The international speakers have been organised by the 'Associação Medico Espirita – AMESP' (Medical-Spiritist Doctors Association).

Spiritists worldwide, let us remember that only love, charity and solidarity will always unite us. It was thanks to the support received from the religious authorities of Cuba, the representatives of CEICA, Manuel de la Cruz and Edwin Genaro Bravo and of course our Heavenly Father who, together with the Spiritual Benefactors, made the **6th SPIRITIST CONGRESS of Central America, Panama and the Caribbean** a great success on 24th & 25th October 2009. **The Cuban Spiritist Congress** held from 22nd – 24th April 2011, in Bayonne, Cuba, with the theme: "For Unity and Mediumship Education in Cuba" **was a success**. Together we formed part of the history of this social-political, cultural and religious event that took place in Cuba, where hundreds of people came together with loving fraternity to take part in this congress.

AFRICAN COORDINATION DEPARTMENT

A new South African Group is studying Spiritism in Portuguese on Mondays and also doing some charity work on Saturdays. More information in the next Bulletin.

The Spiritist Centre Francis of Assisi in Johannesburg, is one of the oldest Centres in South Africa, with more than 30 years of Spiritist activities. Directed by Madalena, who is undergoing many difficulties, but continuing her struggles. Her only son died less than a month ago, but fortunately I was in Africa at that time and was able to go and visit her. She is a strong woman and continues to follow her way of thinking and of seeing the world while battling to serve Jesus.

ANGOLA

ALLAN KARDEC SPIRITIST SOCIETY OF ANGOLA

"The House on the Way", which is a charitable work of Spiritist Assistance belonging to SEAKA, continues to battle on. Probably this month we will be able to open our school year for 400 children, that is our aim and objective to reach this year. Because this will be a place of education, where the children will learn from a tender age how to love each other, how to help others without expecting any reward and to love without waiting to be loved in return, just as my spiritual friend Chico always insisted.

With the opening of the school year we will be able to begin studying the Spiritist Teachings as part of our curriculum. Just like Leon Denis thought that our planet would only get better when the Spiritist ideas are taught in schools.

All of the other Spiritist Groups in Angola continue their tasks of studying Spiritism and working with social assistance for the needy, without interruption.

The Group works with study or teaching materials in two languages... However, we are perfectly conscious of the difficulties and initial obstacles. The book "**Nosso Lar**" has finally been translated into **Finish**.

Very soon the people of Finland will be able to take advantage of the enormous and enlightening experiences of Andre Luiz. This translation required more time than originally expected, but everyone is satisfied and happy with the final result.

The **public lectures** given about the Gospel According to Spiritism and The Spirits' Book were presented in the **Helsinki University**.

We also participated in an event in a Finish esoteric magazine. This magazine had published an article regarding the same topic.

In June three Finish voluntary workers took part in the **Spiritist Symposium in Belgium**. This motivated us very much and gave us ideas as to how we can structure study groups (with Kardec books) and how to **make Spiritism well known in Finland**.

POLAND

POLISH SOCIETY FOR SPIRITIST STUDIES

New Groups

During these last few months two new Groups have been formed in our country: The Chico Xavier Group of Wrocław and The Andre Luiz Group of Szczecin. Both Groups began with monthly meetings, so as to be able to have time to organise meetings and gathering for study.

At this moment we have various groups operating in the country under the guidance of the Polish Society for Spiritist Studies. Varsóvia (2 Groups), Cracóvia (1Group), Oświęcim (1Group), Wrocław (1 Group), Szczecin (1 Group). **The majority of these Groups are comprised solely of Polish people** whose activities are carried out in their native Polish language. **There is only one Group** comprised of Brazilians (in Varsóvia) **with meetings in Portuguese**.

Events

On 29th – 31st May there occurred three big conferences with the participation of the Brazilian

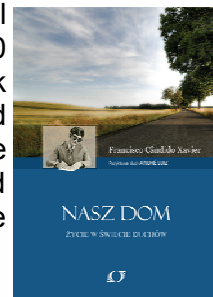

Medium Divaldo Franco, the President of the Polish Society for Spiritist

Studies, Konrad Jerzak and the great philosopher Jerzy Prokopiuk. The first conference on the 29th May held in Varsóvia lasted all day and gathered together about 100 people. During the event two new books received by Divaldo Franco from Joanna de Angelis were launched, being "Moments for Meditation" and "Moments for Health".

The following day the second conference was held in Cracóvia. This was the first lecture to be given by Divaldo Pereira Franco in this town. The famous medium had already visited Poland four times, but had always given his lectures in Varsóvia. This time he had the opportunity to present the theme "Reincarnation" to the Polish public of some 50 people.

However, the most emotional occasion was the following day (31st May) when a group of Brazilian and Polish Spiritists visited the concentration camp of Auschwitz. In the town, which nowadays has the Polish name of Oswiecim (Auschwitz being the German version of this name) Divaldo Franco also, gave a talk entitled "Happy Life". In a small room in the Cultural Centre of Oswiecim about 80 people were gathered. The talk filled everyone with emotion and received a standing ovation by the public. The speaker also received a bouquet of flowers from the Director of the Cultural Centre.

**Books**

During May the book "**Nosso Lar**" was launched in Polish, translated by Konrad Jerzak. It is the first **Chico Xavier** book to be translated into Polish. During the next few weeks there are also being prepared more new books, including: "**The Spirits' Book**" codified by Allan Kardec and "**Chico Xavier – the Medium of the Century**" by Guy Lyon Playfair. The translations of these books are finished and are now going through the phase of revision.

SWEDEN

SWEDISH SPIRITIST UNION

Svenska Spiritistiska Förbundet

On 2nd & 3rd April the ‘Grupo Espírita Grão de Mostarda’ (The Mustard Seed Spiritist Group) took part in the Fair **Harmoni-expo** in **Solnahallen, Stockholm**. This was an important opportunity to disseminate the Spiritist Teachings through the selling of books and offering information about the various Groups existing in that town. As well as our own people on the stand, we had Elsa Rossi also taking part. She is a worker from the International Spiritist Council and the UK Spiritist Movement. On the Saturday afternoon (2nd April) **Humberto Werdini**, a fellow Spiritist living in Spain, gave a talk about the Spiritist Teachings to the public visiting the Fair.

The Spiritist Society Allan Kardec from Gotemburg began a project called: “[Spiritism for young people in Swedish Schools](#)”.

The Society contacted a Teacher from **Cybergymnasiet, a school situated in the centre of Gotemburg**. They received the idea in accordance with their time availability, so at the end of March **a lesson for 30 students was held about the Spiritist Teachings**, wherein the fundamental ideas and the history of Spiritism were talked about, including up-to-date information relating to the world Movement. The students were very receptive to the presentation and so at the end 20 minutes were given over to Questions & Answers. Our group was received with great respect and curiosity and has

SWITZERLAND**UNION OF SPIRITIST STUDY CENTRES IN SWITZERLAND**

The **UCESS** continues with its priority to prepare conscientious workers that truly serve the Cause, who then apply the knowledge that they have acquired from Spiritist Centres of great experience.

We have had a very fertile **2nd Semester** full of Spiritist events:

10th April: A talk given by Emmanuel Cristiano em Geneva: **“It Happened in a Spiritist Centre”**

During Easter we received a happy visit from **Aloisio e Ivone Ghiggino**, who presented us with a series of very appropriate talks, in various corners of Sweden.

Easter Monday: Seminar **“The Function of the Spiritist Worker”** in Zurich.

In May two very active Centres commemorated their “Anniversaries”: GEEPE in Lausanne and CEEJA in Zurich. The first Group invited Andrei Moreira, a doctor and President of AME-MG, who give a seminar in the castle of Yverdon, on the delicate topic of ‘Sexuality from the point of view of the Immortal Spirit’. This same topic was further developed in a second seminar in Bern.

CEEJA of Zurich promoted talks by Iris and Cláudio Sinoti, who are Jungian Psychologists, resident in Salvador and profound students of the works of Joanna de Angelis. It was a great opportunity generously extended to all Spiritists and those who sympathise with the thoughts of the mentor.

This series of talks was closed with a beautiful seminar entitled: A Meeting with Peace and Health.

One of the priorities of the Union has always been to help people so that the Work does not suffer from our imperfections. With this need in mind a retreat was organised for members of all the Centres affiliated to UCESS, in a Chalet, situated in a Nature Reserve, in the Mountains near Zurich. To everyone’s joy we had the friendly presence and participation of the composer and Spiritist singer Vansan and his wife.

Twenty-four years ago the Spiritist medium Divaldo Franco gave us a present of a seminar about Pentecost, at the Foundation G-19 in Zurich.

This year CEEAK from Winterthur organised a beautiful event on 9th June at Volkshaus in Zurich where many Swiss people came to the meeting. They all showed themselves receptive and thankful for this extra event in addition to the talk in Winterthur, which this year had focused its topic on Divaldo’s recent book entitled “Planetary Transition”.
